HONEST LITTLE APPS

A twelve-minute home check-in

Update one household detail, prepare one step for tomorrow and take one practical note you can find again.

4 min · Check one detail

Pick one shared detail, such as where a household reference card is kept or when a flashlight was last checked. Only write private information on your own copy.

4 min · Set up tomorrow

Choose one small preparation you can see when you wake up. Put the book, empty bottle or notebook where you will use it. Write down where it goes.

4 min · Make one practical note

Write one repair measurement, exercise entry or question for a professional. Add a date and decide where to file it so you can find it later.
