HONEST LITTLE APPS

Twenty-five minutes for one shared plan

Choose one real task, give it a small start and decide what to do at the end of a short phone-light session.

3 min · Pick the result

Choose to draft the first two lines of a letter, propose a date with a backup, or choose a location and fallback for one photograph.

17 min · Do the first piece

Name one app you plan to leave closed. Open only what is needed for your task. If sharing a room, each person writes their own next step before starting.

5 min · Finish the handoff

Write the one detail that makes the plan useful. A useful handoff could be a place and time, a full sentence, or a note about what to check next.
